ALPHABETICAL LIST OF COTTAGE OWNERS OR REGULAR OCCUPANTS

y indicates year around home, o owner's use, p joint ownership, z owned by someone else in the family, r usually rented. The address with abbreviation St. omitted is the home address. All are N. Y. State unless otherwise noted. Numbering is continuous from south to north with 100 numbers allotted to each mile, e after a number indicates east side, w west side.

The Schuyler County Fire Coordinator has installed a numbering system for every house in the county. Numbers are in consecutive order on a given road but there are 29 roads in the area covered by this directory with nothing to show the relation of numbers on many roads to those on other roads. This directory shows the old numbers that have to be used to locate desired cottages and also the new county numbers that are to be used in reporting fires, etc. The new numbers must include the road names. These are indicated in this directory by letters as follows:
