This is a copy of a booklet published by the First M. E. Church of Wayne, N. Y. for a "Church Fair" held on November 20 and 21, 1914. The booklet contains a wealth of information on the citizens of Wayne, New York at that period of time, including businesses, a directory of residents, and a history of the church in this area. For those interested in genealogy, there is genealogical information for a number of church members in the beginning of the booklet, and the directory of residents often includes names and relationships of family members, as well as their occupations.

To assist in finding names of interest, an index has been added at the end. It includes names of people, businesses, and street names. Also included is a map of Wayne as it was in 1874 (Beach-Nichols Atlas), to help in locating some of the places mentioned in the booklet.

The Wayne History Group would like to thank the family of Carl Houck for donating his collection to the Group. This booklet was part of that collection.

A piece of good Furniture or a Rug is like a friend tried and true—a pleasure and a comfort to you all through life. Friends are not picked up haphazard, neither is house furnishings of the right sort. They must be selected with care.

The Furniture and Rugs which this store supplies represent the products of the best makers in the world. They possess the sterling qualities essential to a life of long service. Every article that we sell stands absolutely upon its merit and this store stands back of every statement of its representations as to quality and value. A visit to this store, a better acquaintance with its large assortments, the low plain figure price marked on each article, and its unequalled facilities for serving you, will prove to your advantage.

Pastor's Greeting to the Members and Friends of the Methodist Episcopal Church, Wayne, N. Y.:

My family and I have completed one year among you and in many respects a pleasant year. You have helped in many ways to make our path smooth, and we wish to show our appreciation of these kindnesses, by giving of our best services and ability to the church and community.

In looking back over the year's work, there are a few things accomplished for which I thank God. First, the souls that have been won for Christ. This is the chief object of the Church of Christ, to seek and to save that which was lost. Then I am thankful for the desire of every member to rid the church of all debt, also for the desire to make the house of the Lord beautiful, and surely this is the right spirit. In that house we meet with the King of Kings and Lord of Lords. If any earthly king or lord was going to pay us a visit, we would certainly do all in our power to make the place where we should meet, beautiful, and spare no expense. Is it not then of more importance to give some of our time and money to make our church a fit place to meet with our Heavenly Father, the giver of every good and perfect gift?

In our present undertaking, to shingle the church and paper it, also provide a new carpet and other little things, I have had much encouragement, especially among the trades people of Penn Yan and Dundee and our local tradesmen, even Geneva has caught the infection. The ladies of the church are very busy, and hope by the 20th and 21st of November to have a very pleasing display of fancy and useful articles ready for sale. I hope that the friends (and everybody is our friends, because we want to be the friend of all and the enemy of none), will remember those dates, and send us any article you wish that will add to the amount we hope to raise.

It will take over \$300 to carry out the scheme of renovation, and I am confident that with a long pull, a strong pull and a pull altogether, we can reach the goal.

So much about the machinery, what about the power to drive this machine? So as to accomplish the work that God would have us do, let each one feel his or her responsibility in the spiritual realm, in the assembling of ourselves together, not simply to please the preacher, not simply because we like to go to the House of God, but because we are helping someone by our presence, helping to bear one another's burdens and so fulfill the law of Christ.

There is no question whatever but what the best way to secure the needed improvements around a church is to raise the money first, and then spend it as judiciously as possible; and the best way to raise the money is for everyone to get behind and push with all their might. Let no one try to figure out how the thing can be put through without their assistance.

It is an indisputable fact that the help of every last one is needed, not only in a financial way, but in every other way; and if there should be one who does not believe that his services could be utilized, let him go and ask the head of the committee what he can do to help.

We prophesy that your two days' fair just before Thanksgiving, at a time when anticipations of stuffed turkey and a lot of other good things to eat are so soon to be realized, will be a grand success. There are very few who, when they look around at others and see how much better off they are, but what have great cause to be thankful; and this feeling naturally tends towards liberality.

If you raise enough money, there are probably other things you need, besides new carpets, wall decorations and a new roof. Possibly the church might stand some paint on the outside, as well as on the inside; and when it comes to the question of the roof, a little investigation would easily prove that the very latest, finest looking and most serviceable roofing to be had is Russelloid Shingles. They come in two colors, red or green; and either color, or a combination of both colors, can be used according to taste.

The base of these shingles is the same as Russelloid Roofing, the wearing qualities of which are being proven all around you. The surface is natural color crushed granite imbedded thoroughly into the asphalt coating, thereby adding appearance to utility.

The same material in rolls is much more economical and just as serviceable; and so far as the regular three-ply Russelloid Roofing, safeguarded at the joints by Russellap, is concerned, it is the most serviceable and economical roof to be had at any price and can be put over old, wooden shingles to a good advantage, which makes quite an additional saving; and it might be that money saved on the roof could be used to a good advantage for something else.

10 per cent. discount is allowed to all churches.

We must apologize for having branched off into roof talk; and our desire to make your dollars count even though it might benefit us to some extent, is the only excuse we have to offer.

**To the Pastor and Members of the Methodist Church at
Wayne, Greeting:**

I rejoice with you over the improvements you are to make on your church property. It is a great credit to any community to have its house of worship well cared for. We ought to be more concerned about the Lord's house than about our own. It is impossible to estimate the worth of the church to a community. It makes all property within the scope of its influence more valuable. It uplifts and purifies society. Truth and righteousness are proclaimed from its pulpit—children are taught the beautiful and wonderful words of life. Jesus Christ is preached as the only Savior of men and the mighty helper of men in life and in death.

All should be loyal to all the work of the church. There is no all without each. Every one has his own responsibility and his own task.

“There's a work for me and a work for you,—
Something for each of us now to do.”

That you may succeed in all your enterprises that in your restored and beautified church this year and each succeeding year many souls may be converted to God and young and old strengthened in every good word and work is the prayer of your brother and fellow worker.

The Boy

Before us stands the boy. We ought to be interested in him. We ought to help him. What we ought to do we can do. Let us all say, "What we can do we will do."

One thing we can do if we will. If we brighten up our intellects and think anything like straight, we can do it. What is it? Why, realize that the following is true:

Boy plus sin plus years equals man plus ruin.

Boy plus righteousness plus years equals man plus nobility and power. Do you believe it? If you do not you are the biggest fool on earth. But you are no fool. Then be consistent and help the boy by precept and example. Give him a good, clean, fair chance in the home, in the school, in the church, and in the town.

Do not smile on any man or woman who wilfully harms a boy.

The boys are looking at us. We ought to be fostering and developing in our town all the gentler virtues which make for sweetness and purity, art and refinement, and the only **real success**.

But this kind of thing calls for leadership. Are you a leader? Would you be willing to help?

This is no small question. It lays hold on things fundamental and eternal. The way we answer it makes all the difference between boys becoming men splendid and noble and boys becoming men pitiable wrecked and woe-fully lost. They walk our streets daily, men clean and wholesome and men unclean and loathsome.

Which kind of a man do you want your boy to be, or some other boy to be? Which? How much are you willing to do to make the boy good? You did not think that the boy could be made good without hard work and big price on your part, did you?

Let us then take the boy by the hand and lead him into the good path of life. This may be a difficult task for us; but let us nerve ourselves for the work, the high work. And while we thus labor what shall we think of the man or woman who takes the boy by the hand and leads him into the path of wrong, into the slime, into the state of the beast? **What shall we think?**

And here is another question: Shall the Christian people, and others, continue to be afraid to tell them what we think?

Let us hope that we shall not. Let us pray that we shall not. Let us resolve that we will not. Let us up and tell them. This does not violate the principle of Christian love. What a sickly love is that which with complacency permits deadly evil to be perpetrated upon the boy, and withholds the rebuke.

Let us speak the truth if it means loss of place, loss of bread, loss of all.

If we do not speak in a truer sense we may lose all.

But by doing our duty we will never meet with loss. Good people will always be with us, and supreme thought, God will be with us. "Lest we forget" then

"Lives of great men all remind us,
We may make our lives sublime."

(Signed),

CHAS. T. WALSH, Church Clerk.

On July 5th, 1872, Amos West died, one of the pioneer members of said First Society of the Methodist Episcopal Church of Wayne, N. Y., and he always was the first in every enterprise to build up the church, in spirit and financially, as appears on the several lists of contributors, occurring during the thirty-five years of service of membership. He left one daughter, the thirty-five years of service of membership. Appears he left one daughter, Hannah West, who was married to John L. Gasper. She was survived by two daughters, one son and her husband. The eldest daughter, Helen, married with Herbert Stanhope. Two sons were born of this union and are living now. The other Elvie Gasper, married with Albert McMillan, of Indianola, Illinois, and now lives there.

Lewis Clark, another pioneer veteran in the work of erecting, and constructing the First Society of M. E. Church in Wayne, N. Y., a pillar and staunch support for its conception, and right hand man to Father West in all that was done from 1837 to Dec, 1871. He was born May 5th, 1905. Married to Mariah Hollenbeck, November 27th, 1830.

Three boys and six girls blessed the union of these two Methodist enthusiasts, who so trained their children in the way that did reverence and respect to their teachings and examples, but only three of the girls are living to-day of all this remarkable family. The father, Lewis Clark, died December 1st, 1871. Mariah, his wife, survived him until June 21st, 1895, when she died at the home of her youngest daughter, Mrs. Sarah Eveland, Wayne, New York.

Will note one more of the men who has left an impress upon the history of this First Society of Methodist Episcopal Church, in Wayne, N. Y. John Chambers, the father of Miss Frances A. Chambers, who was born and reared to womanhood at the place called Wayne Hotel, N. Y. She will, without a doubt, be remembered in this society so long as it may exist. She has been the only member who has attempted to perpetuate doing benefits. After departing from our midsts, she having died during the year 1912, leaving in her last will and testament a legacy of \$1,000.00 for use, which said society may draw the avails arising from all interest accruing thereon from it. The executor of said will forwarded to the trustees of this society on the 4th day of June, 1914, a New York draft for said amount of \$1,000, which draft was immediately invested in first farm mortgage, insuring six per cent. interest, payable semi-annually, Nov. 1st and May 1st, the first interest being due Nov. 1st, 1914. Who will be the next?

Again in 1882 the meeting house was remodeled and built over. The committee appointed for the purpose consisted of John Wixson, Gilbert Hopkins and John J. Earnest. \$750 was then raised and put on the building, changing the interior to front the rear. Again in 1901 the foundation

was entirely rebuilt, steel ceiling and inside paint etc., added at a cost of some \$325.

During 1905 the outside of the meeting house was painted, and new chandeliers for lighting church placed, costing some \$200.

Now it is proposed that some \$500 more be used for needed repairs and furnishings upon the church building and parsonage. For the purpose of raising the money to pay for the needed wants of this society all its friends and neighbors and whosoever will are respectfully solicited and appealed to for their contributions of whatever they may feel willing to render unto the Lord for the benefits they have and enjoy.

The 77 years since the organization and incorporation of this First Society of M. E. Church at Wayne Village, many changes have taken place in

this section of the State. The County of Schuyler was formed from parts of Steuben, Chemung and Tompkins. April 17th, 1854, some 17 years after the building of the first meeting house at Wayne Hotel, then a comparatively newly settled country, the first being made by Gen. Wm. taken by Amos West and his pioneer compatriots to build a church at Wayne Hotel. This forming of Schuyler caused the changing of several town and county lines, by which this First Church was moved out of Wayne into the town of Tyrone, out of Steuben County into Schuyler County and all the while it remained on its very lot of land upon which it was first erected, bought of Amos West and Isabella West, his wife, for ten silver dollars. Their pictures and those of Lewis Clark and Mariah Clark, his wife, illustrate this note book. It certainly called for a sacrifice to build a church in the wilderness in those days.

Birge, George K., and wife, proprietor of the Lake Home tract of land, commonly called the Big House, on the hill in the Town of Wayne, N. It already attracts many from distant places by automobile, just to see what transformation is being wrought under direction of this remarkable man, which is not only making nature bloom, but is certainly giving much benefit to those wanting work—a boon to laborers in this community.
