Lake Keuka Directory

First section lists owners and usual occupants (when known). y means year around home, o mainly for owner's use, r usually rented, p partly owned. The husband's name is listed even though the wife may be the actual owner. The address given is the home address, the abbreviation St. being omitted, PY used for Penn Yan, Hport for Hammondsport, Bport for Branchport, E for Elmira, C for Corning, R for Rochester and PP for Painted Post. It is New York if another state is not shown. A name between * * is the owner of the place occupied by the person listed. The name after the — is the cottage name. The last column is the cottage number. This pointed off to two places is the miles from the four corners in Penn Yan or Branchport or the monument in Hammondsport. PYe is up the east side of the Penn Yan Branch; Haw, Hammondsport Branch, west side; Bre, Branchport Branch, east side, etc. You must know which side of which branch as well as the number. R after the number shows it is on the road rather than on the shore. If two or more places are the same distance away, the next one back from the lake is A, the second B. etc,

The second section lists the named cottages with their owners and numbers.

The third section lists all cottages and homes in geographical order.

Inside the back cover is a map drawn especially for this directory, showing the location of every cottage and home.

If in doubt about the correct number for your new cottage, drop a line to John V. Stark, Newark, Wayne Co., New York, giving full information as to the location of the cottage. An incorrect number only causes confusion. There is no charge for this service.
